THEATRE

# ENOUGH.

We stand in solidarity with the global community in unequivocally stating that Black Lives Matter.

We pledge to fight back against white supremacy and the systems that leave black communities in the United States in a constant state of crisis.

Together we stand with people of all races and backgrounds and say, "Enough is enough."

## FISHTANK THEATRE DIVERSITY STATEMENT

Fishtank Theatre is committed to opening access to theatre creators and telling stories across the spectrum of identities – particularly those most marginalized and traditionally silenced in theatre. Fishtank Theatre welcomes theatre makers and audiences of all races, ethnicities, religions, abilities, sexual and gender identities. We seek to give space and resources to tell the stories of these communities, and to produce art in Kansas City that challenges as much as it educates or entertains.
